

- 1 Pleasing to the eye fitting seamless in the landscape unique design
- 2 You see it and you know where you are.
- 3 The structure makes sense where it's placed
- 4 A design which depicts the hills of Hillsdale on the horizon
- 5 Flow modern with interest makes a statement
- 6 Less is more graceful
- 7 Clear, simple, cost-effective
- 8 I would like to see something that blends in with the surroundings and is subtle. Maybe something that reflects the shape of the hills behind.
- 9 Also, nothing like the Belmont bridge - something about it is distracting and causes slowdown in traffic on 101. It looks out of place
- 10 Interesting and appealing approach
- 11 Memorable
- 12 Legacy
- 13 Smart
- 14 Signature means personalized. Bridge should reflect the landscape and the culture of the community.
- 15 Bridge should not be overwhelming and obstruct the view.
- 16 A one-of-a-kind design
- 17 No one else (city) has the same design / look.
- 18 Uplifting, dream like, organic forms
- 19 Color
- 20 Lighting
- 21 Architecture design
- 22 Something that illustrates how we experience and enjoy San Mateo
- 23 Distinctive - different than other bridges
- 24 Consistant with San Mateo aesthetics, history
- 25 Eye catching
- 26 When oeople see a picture of the bridge then will recognize it.
- 27 And when people see the bridge, they will recognize where they are because of it
- 28 Unique and something pertaining to San Mateo as a city.
- 29 A forward looking futuristic design similar to the bridge at Ryder Park for example
- 30 Aestitically pleasing while at the same time being functional and cost effective.
- 31 Something to commemorate Bay Meadow Race Track for a historical element, i.e. horses on railing round bike and race track feel
- 32 Entry to the bay and lagoon water, beach, nautical oriented
- 33 Beautiful to look at from all angles
- 34 What will celebrate our cultural, technological and recreational diversity?
- 35 We are in an incredible area - reflect that!

- 36 Design that hits the "wow" button
- 37 That the design is so visually pleasing that it is a pleasure to walk on bridge or bike on the structure
- 38 I love riding my bike or walking on the Golden Gate Bridge or walking on the bridge over Sacramento River in Redding. I feel as though I'm transitting a thing of beauty
- 39 San Mateo doesn't have a signature - lets not try to establish one using a foot / bike path structure
- 40 Keep it simple, low cost, unobtrusive
- 41 Character - not boring
- 42 Sets us apart from Belmont bridge
- 43 Perhaps follow a bridge theme and repeat similar concept to Seal Point Park style
- 44 Wow factor but not over the top
- 45 Belmont bridge is bulky and ugly
- 46 Bridges at 3rd Ave park on bay are elegant and more worthy of multiple years of use.
- 47 A San Mateo brand
- 48 Smooth curves
- 49 Not jagged
- 50 Not Ralston
- 51 Simple
- 52 Bay Meadows - horses
- 53 Children and Seniors first
- 54 Simple clean lines
- 55 Pleasing to the user as important as representing San Mateo
- 56 Maybe something hinting at Bay Meadows history as horse - racing track which lots of us remember.
- 57 Lighting
- 58 Cable
- 59 Bench / Overview
- 60 Signature means unique and identifying with the "place"
- 61 Living Plants
- 62 Blends with nature
- 63 Character - not boring
- 64 Mountains, bay, Foster City canals
- 65 Natural colors - not blue
- 66 Visually interesting. Since 101 is pretty boring.
- 67 It would be nice to view an object that "changed" as pedestrian / bicyclist entered as well as the journey throughout
- 68 An experience that is pleasing, rather than getting from point A to point B
- 69 Also would like the bridge to be visually interesting to commute car traffic on 101.

### What does "signature" mean to you?

Attachment 3

- 70 Looks different from either side representing in that case San mateo and Foster City
- 71 Timeless in its design, practical financially
- 72 Not overly decorated
- 73 Airy
- 74 Most important is experience to cyclists and pedestrians rather than drivers
- 75 Bridge should be safe, easy to use as a cyclist or pedestrian and have distrinctive character of place (close to Bay and Bay Meadows)
